To whom it may concern;

I have in the past worked closely with Pope Plant Ltd on several projects – including Brookhurst Wood, Redhill and Shakespeare Farm Landfill sites. The work undertaken was either a soil moving or landfill capping project although I am sure they are capable of more complex projects. My interaction with Pope Plant has been from a landfill gas collection infrastructure perspective. I have always found working with Pope Plant to be easy and that they are a dependable contractor with high levels of workmanship.

I would have no concerns on recommending them for similar work in the future.

Should you have any queries then please do not hesitate to contact me at the above address.

Yours faithfully
Biffa Waste Services Ltd
