To whom it may concern

I confirm that I have dealt with Pope Plant Ltd for the first time in 2011, they provided Colnbrook Landfill site with the engineering of a 43,000 m2 capping system to Cell 13.

The works were completed ahead of schedule with a small team whom were all very professional, with a very strong focus on Health and Safety it was important to me that all the relevant safety documents were in place, these were presented and supplied in an agreed format on time, good use of PPE from all the staff was also noted throughout the works.

I would like you to know that when I approached any of your members of staff, they have all expressed a professionalism you should be proud of.

I would confidently recommend Pope Plant Ltd as a solid and reliable supplier, and experts in their field, and will have no hesitation including you in the tender process again in 2012 for the planned works.

Yours faithfully
Andy White
Colnbrook Landfill Manager
